# FROM THE EDITORIAL OFFICE

## INFOKES Volume 15 Issue 2, February 2026

We offer our praise and gratitude for the grace and blessings of Almighty God, which have enabled us to complete the INFOKES Journal for the February 2026 edition. In 2026, we strive to compile a journal consisting of various research findings and scientific works, while remaining aligned with the mission of Universitas Duta Bangsa Surakarta. In this edition, readers will explore topics concerning medical records and health informatics, as well as other health-related fields.

It is our hope that the content provided in this issue will be beneficial to those interested and serve as a valuable reference in the fields of medical records, informatics, and health. We would like to express our gratitude to all parties who have provided moral and material support, allowing the INFOKES Journal to be completed on time. We continue to welcome suggestions and ideas from our readers for the future improvement and publication of the INFOKES Journal.
