

OVUM : JOURNAL OF MIDWIFERY AND HEALTH SCIENCES

OVUM: Journal of Midwifery and Health Sciences is a scientific journal managed by Duta Bangsa University Surakarta, published regularly twice a year, in April and October. This journal focuses on publishing research articles, scientific reviews, and the development of knowledge in midwifery and health sciences. The journal aims to serve as an academic platform for lecturers, researchers, practitioners, and students to disseminate scientific findings relevant to the development in the field of midwifery and health; to support the advancement of knowledge and evidence-based professional practice; and to encourage collaboration between academics, practitioners, and researchers at both national and international levels.
